

# Better Water Means Better Living

*Discover all the benefits of a cleaner, easier way of living with the Culligan Super S™ Whole House Water Filters.*

Whether your problem is Iron, Hydrogen Sulfide or both, the *Culligan Super S* filtration system is the solution.

## Tough on iron water.

If there's iron in your water, you don't need us to tell you how bad a problem it is. Ugly rust stains on your clothes, fixtures, and dishes remind you everyday.

The *Culligan Super S* filter takes care of all that. Through an exclusive Culligan process, iron is oxidized and then filtered, leaving you with fresh, clean water for bathing cleaning and washing. And since the Super S utilizes this unique air compression process, the need for regenerants is reduced. Simple backwashing saves you money on chemicals and water.

## Stops that "rotten egg odor."

Hydrogen sulfide. If you have it, you know it. It's what causes that "rotten egg" odor in your water. And it doesn't look any better than it smells. Hydrogen sulfide leaves black stains on your laundry and bathroom fixtures. Even worse, it can cause serious damage to your pipes, leading to costly plumbing repairs.

The *Culligan Super S* filter virtually eliminates these problems using a patented filtration process that removes hydrogen sulfide from your water. So you won't have to hold your nose every time you turn on the tap. Plus, the only regenerant you'll need is ordinary household bleach. So you won't be bothered with the expense and hassle of other chemicals. That will save you time and money.

## Quality. Convenience. Economy. What else would you expect from Culligan?

With the *Culligan Super S* filter, you can be sure you're getting one of the most dependable, convenient, advanced filters on the market today.

It uses only 10 inches of floor space, about the same as a floor lamp. And it will fit almost any home, whether you're on a private well or a public water system. And unlike conventional water systems, the Super S filter doesn't use messy, expensive chemicals to regenerate, nor do they require as much backwashing. So you'll save on chemicals and your water bill.

Finally, the Culligan name means expert Culligan service. Our warranty is our word on it.\*

*The full-flow one inch system meets plumbing standards and allows you to run numerous water sources simultaneously without lowering the flow rate or pressure.*

## Exclusive Culligan Super S™ Design Technology

*The Culligan Super S Water Filters are built with state-of-the-art features to deliver the finest conditioned water to your entire family.*

**Super S System**  
Air compressor is key to the aeration process which oxidizes the dissolved iron, and hydrogen sulfide. On/off times adjustable to raw water characteristics.

**Bypass the System**  
The one inch Cul-Flo-Valv® bypass valve lets you bypass the system for uses not requiring filtered water—such as watering the lawn—without losing pressure.

**Reliable Valve**  
Exclusive, non-corrosive control valve that directs water flow during service and reconditioning. Low friction piston and seal services defy problem water.

**Unique Multi-layer Filter Media**  
The media in the filter tank acts as an insoluble catalyst to enhance the reaction between the oxygen and iron.

**Customized to Fit Your Life**  
Culligan patented electric timer automatically regulates all cycles - providing customized service for your individual needs.

**Worry-free Water for Everyone**  
Guest Cycle™ recharge provides an extra supply of filtered water when there are more people than normal in the home.

**Durable Tanks**  
Sturdy, filament-wound exterior, and smooth, non-permeable inner tank shell is listed with NSF.

# When It's Built by Culligan, It's Built to Last.

Quality products  
and services you  
can count on.

For over 65 years, Culligan has led the water treatment industry in innovation and service. We offer the broadest product line, more than 200 patents and a global presence. From manufacturing the finest products to delivering expert service to your home or office, we're involved in every phase of your water treatment. Of course, Culligan® products are built to last and are backed by solid warranties\* and the best trained and experienced service technicians in the industry.

## Why Millions Trust Culligan to Deliver the Best Water

- ✔ We manufacture our own water conditioners, make our own tanks, mold our own plastic parts and build our own timers. No other water treatment company holds as many patents as Culligan.
- ✔ We're ISO 9001 certified. All assembly takes place under exacting quality control.
- ✔ Culligan conditioners possess the industry's most state-of-the-art features because we maintain our own extensive research & development facility with over 40 engineers and scientists.
- ✔ Our products are backed by the best service technicians in the industry. With over 1100 dealers worldwide, a Culligan Man™ is always nearby. No run-around for service!
- ✔ We have the expertise to correctly identify the necessary water treatment. Your local dealer is a trained specialist with the resources of the entire Culligan system at his disposal.
- ✔ We sell and service our products in more than 90 countries globally. Wherever you go, we're there to make sure you receive the Culligan water you've come to enjoy.
- ✔ When you purchase a Culligan product, you are purchasing the finest water treatment product available in the world today. We are so certain of this fact that if you are dissatisfied with your Culligan product for any reason within 30 days of your purchase, Culligan will refund the purchase price. \*\*
